About the Fair

RENERGY COIMBATORE 2024 - The upcoming trade show at COIMBATORE - is a major and significant event in the Renewable and Sustainable Energy Sector trade show calendar in India. The event is organised by CODISSIA Intec Technology Centre (COINTEC) a Trust formed by The Coimbatore District Small Industries Association, Coimbatore, popularly known as CODISSIA, in partnership with Sustainability and Energy Practitioners Association(SEPA).

The RENERGY COIMBATORE 2024 trade show, with reputed manufacturers from across the country and abroad participating, will have Renewable Energy Systems, products and solutions, providing a Platform for Manufacturer, Project Owners, Managers and System Designers to discuss options and optimal solutions. Participants from Industry will display and demonstrate the latest technologies, leading to meaningful business networking between customers and solution providers.

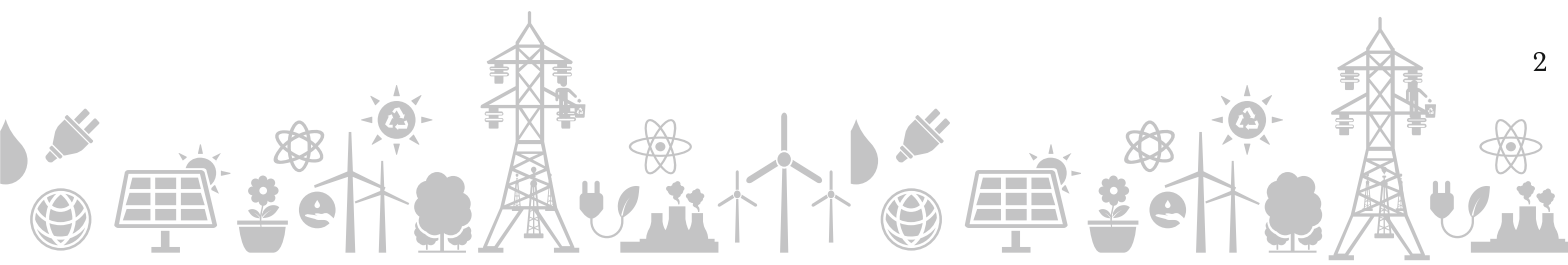

The Organiser

CODISSIA
Intec Technology Centre

CODISSIA Intec Technology Center is a Trust formed by the Coimbatore District Small Industries Association (CODISSIA) in the year 1969 and owns the CODISSIA Trade Fair Complex. Inaugurated in the year 2000, CODISSIA Trade Fair Complex is the first Trade Fair Complex in South India and the Second in India built with the following objectives:

- 1) To promote and create infra-structural facilities for conducting Trade Fairs, Industrial Exhibitions, Buyer-Seller Meets, Seminars, conventions, Conferences, Workshops and such other activities needed for the growth of regional economy.
- 2) To carry out scientific and technological research and development work on product, process and services.
- 3) To promote, establish and manage a Trade Center to assist the industries in identifying the sources for Export, Import and Technology Transfers and Collaborations.

Host City and its relevance:

- Largest city in Tamil Nadu after Chennai in all aspects - Politically, economically and industrially
- Industries ready to adopt renewable energy methods
- Presence of a large number of manufacturers in the renewable energy sector
- High per capita income within the state after Chennai
- High levels of awareness and commitment of the people towards environment protection
- Smart city in the making - Rapid urbanization and improved road infrastructure
- Proximity to Kerala, which is a major buyer market
- High levels of awareness and commitment of the people towards environment protection

'Opportunities ample for MSMEs in indigenisation efforts of Indian Navy'

There are requirements for spares for ships commissioned in the 1970s or 1980s

SPECIAL CORRESPONDENT
COIMBATORE

Domestic industries, including MSMEs, can participate in the indigenisation efforts of the Indian Navy and supply equipment and spares for power generation systems, communication systems, navigation aids, etc., Commodore B. Balasundaram, head of Centre for Indigenisation and Self Reliance, Indian Navy, said here on Friday.

Inaugurating the sixth edition of Bharatex 2022, an electrical, industrial electronics, and renewable energy fair organised by the Coimbatore District Small Industries Association (CDSIA), he said indigenisation of Indian Navy started in the 1970s and the Navy has achieved 90% indigenisation in flight systems, 80% in moving systems, and 50% in flight systems. "There are

are also requirements for spares for ships commissioned in the 1970s or 1980s, technology induction, and urgent substitution. "We will hold your hand and help you," he said, urging industries to tap the opportunities in the Indian Navy. According to Ashish Modi, Managing Director of Gloster

Cables, India is the fastest growing economy globally and has the capability to be world class in several manufacturing sectors. With the world looking at "China plus one" policy, there are ample opportunities for Indian manufacturers. As the economy grows, demand for electrical and electronic items will grow, he said.

V. Ranganathan, chairman of the event, said the five-day event at CDSIA Trade Fair Complex is expected to get about 20,000 visitors and generate trade enquiries for Rs100 crore. From wires and cables to ETV and solar panels, the expo has a wide range of displays. V. Thiruganesh, president of CODISSIA, said electric vehicle (EV) sector has been highlighted in the exhibition. "We are aware that the automobile sector is heading to a shift," he added.
